

If you are looking for a professional and compassionate home for your loved one, I would highly recommend Tender Hearts Assisted Living. My husband lived there for several years and the care he received was amazing. I was always informed of his medical condition and together we considered methods of keeping him comfortable. They were thoughtful about the things he enjoyed such as favorite TV programs and treats (like cookies). They also encouraged him to attend social activities that were offered.

Tender Hearts Assisted Living was concerned about my welfare too. They made me feel like one of the family. They were always there for me when I needed them. My husband died in May but we still stay in touch. That's a wonderful testament to what a wonderful group of people work there.
