

Chris & Rachel,

We were treated like family when my husband, Dennis stayed at Tender Hearts for eight months before his passing. He was not watched as well at another Assisted Living and ended up losing a lot of weight. He was not in good shape when we brought him to you. You nurtured him back to much better health.

He was difficult to take care of at times and the staff never complained. You continue to treat him with dignity and compassion and the person he was, not the disease. It was a difficult time for all of us, but we always knew he was getting great care. It was greatly appreciated by myself and our three daughters. He received hugs & gave them back.

I'm a retired nurse, so I am aware of the standard of care for clients. Tender Hearts staff always met or exceeded in taking care of my husband's needs.

My final blessing from them was when he passed away suddenly Rachel and the Hospice RN came to my door to tell me.

I would recommend Tender Hearts to any of my friends in need of care like they would give at home if they could.

Thanks Chris, Rachel, and staff for everything!

Diane Brown
