

Chris & Rachel,

I thought I would type this out so can read it.

I know Our Mom has not really been here for too long as of yet. As you know when we were making the decision to move Mom somewhere it was a very trying time for both of us. I can tell you now after these few short months we both are so much as ease and at peace with our decision, and here is just a little bit why.

We like to visit nightly just like we did when Mom was at home so we get to observe the activity in the building and see the interaction. Never once have I felt like I was not welcome or was coming too much.

I continually see the tenants of this building getting some of the best care they ever could. They always are treated with real compassion and gentle hands, and this was one of the things I was worried about in the move. I know we all have good days and bad days from both sides, but your employees always wear a smile on their face, and they always try and make it better for those who are here and struggling today. To me this is very Professional. Also from what I see you have a group that make an excellent cohesive team to be Proud of.

I am sure I speak for both of us when I say, God Bless all of you for the Great work you do and you should be Proud of the work you all do for the Elderly!!!

Thank You

Tom Vanden Bush
