

Chris & Rachel!

I would never want anyone to feel like they were not good enough but you should know how wonderful several of your employees are that I have had contact with. I have watched them interact with the residents & mom.

Confidential staff names

They are so kind & you can see the care & love in their hearts! One of them told me they treat the resident as if it were a grandparent! What a truly compassionate idea - They have gone up and above in the care of mom! We definitely put mom in the right spot!! \* God Bless You All!  
Paula Klaus  
wish they all had name tags
